ICT Resources to Enhance Learning

HiCET has implemented effective content delivery using ICT tools in the classroom for better understanding and reinforcement of the concepts and problem solving. ICT tools supplement traditional teaching-learning approaches, and the institute is keen to offer cutting-edge approaches for enhancing the educational experience. The institution is equipped with the necessary tools, including 1759 of computers, 1 GB high-speed internet access and Wi-Fi enabled classrooms which widespread ICT proficiency among the teachers and students. Faculty members have received training in effective utilization of ICT tools from Centre for Faculty Development.

The training Program organized for the Faculty members is given below.

Learn 36 Tools To Be a Creative
