**Ban on use of Plastics**

Maintaining cleanliness is a crucial component of healthy living since it promotes hygiene and aids in personality development by keeping us both inside and externally clean. HiCET made the decision to exclude plastic from the campus. Inside the campus, steel glasses, plates, and spoons are used in place of the usual paper cups, plastic plates, and plastic spoons. HiCET established a "Plastic Free Zone" to raise awareness among the community at large about the need to stop pollution and leave a clean, green environment for future generations.

**Display of plastic awareness boards at student centric points**

7.1.5 Green Campus initiatives

Landscaping with Trees and Plants

The Institution upholds a clean and natural environment on the campus. The Institution guarantees the protection of the environment by creating a separate estate maintenance wing. By using gardeners and sweepers, it keeps the plantations and lawn in good condition. Being ecologically friendly and maintaining a green campus are more important to our college, which makes sure that there is pure oxygen available throughout the entire structure. More trees have been planted on campus, making it greener and more pleasant for faculty members and students to work and learn there.

Pedestrian Friendly Pathways

The institution has enough space for parking vehicles and roads on campus are kept in good condition. Through pedestrian-friendly walkways, people can stroll securely through the campus. There are security personnel posted to each turn and campus crossing. The campus has increased pedestrian visibility, a place for sidewalk amenities and planting, as well as more space for pedestrian queuing.

Restricted Entry of Automobiles

HiCET has implemented a restriction on vehicle admittance to prevent numerous bikes and cars from unintentionally entering the academic campus. HiCET has a fleet of buses to transport numerous students from various locations in the city and in the suburbs. This practice reduces both pollutants and gasoline usage.
