SCREEN READING SOFTWARE

NV Access

Empowering lives through  
non-visual access to technology

Non Visual Desktop Access (NVDA) is a free and open source screen reader for the students with some disability to write their exams, to take notes and listen to online lectures. It has been installed in some computers in our library, for the blind or vision impaired students. The library has adequate number of systems which have screen reading software installed in it, and similar websites are easily accessible. There is a Braille Keyboard available for the visually challenged.
